EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE TITLE:

The title of the invention has been changed by the Examiner to the following to more accurately reflect the claimed invention:

--PRINTER AND APPARATUS FOR GUIDING INKJET PRINTHEAD
INCLUDING GUIDE RODS AND BEARINGS--

title has
been changed
in PALM

IN THE CLAIMS:

In claim 10, line 5, the term "a" (second occurrence) was deleted and replaced with --the--.

In claim 10, line 6, the term "the" (first occurrence) was deleted and replaced with --a--.

The above changes to the claim were made to clear up an obvious informality. In particular, it appears that applicant amended line 5 in response to the claim objection regarding the language "the cavity wall" raised in the last

paragraph of page 4 of the office action dated August 11, 2004. However, the first occurrence of "the cavity wall" actually occurs in line 6 and additionally, it appears the term in line 5 should be "the" guide rod since the guide rod was previously recited in lines 4-5. Therefore, since this appears to have been merely a typographical error, the above correction was made.
